8. When your teacher assigns your summer work, they will appear in the Assignments tab. These are the assignments you should complete. If there are no assignments, you must wait for the teacher to add you to their class. For example, you may join the class on Monday but, the teacher may not add the assignments for you until Friday.

To earn credit for the summer assignment, you must earn a 75% or above on all assignments. There are a total of 10 assignments. You may attempt each assignment multiple times. Assignments will appear on Monday June 8th. Please join the class BEFORE June 7th. Any student who joins after June 7th will have to wait for the teacher to assign them their work (remember this may take up to one week).
